

## TOWN OF MONROE ENGINEERING DEPARTMENT

7 Fan Hill Road  
Monroe, CT 06468

Town Engineer: Scott H. Schatzlein, P.E.  
Phone: (203) 452-8631 • Fax: (203) 452-2963

### NOTICE OF DESIGNATED TOWN REPRESENTATIVE

September 6, 2018

To Whom It May Concern:

The Town of Monroe has retained the firm of Tighe & Bond (Engineers/Environmental Specialists) to gather data for Town compliance with a State Department of Energy and Environmental Protection (DEEP) General Permit for the Discharge of Stormwater from Separate Municipal Storm Sewer Systems (MS4 Stormwater program).

Accordingly, representatives of Tighe & Bond will be working throughout the Town of Monroe to gather necessary field data to meet the requirements of the aforementioned Permit. The work will consist of screening storm drainage outfalls for illicit discharges, collecting stormwater samples, and recording site/facility conditions.

Due to the weather-dependent nature of the screening and sampling, the work will continue through June 30, 2019.

More information on the MS4 Stormwater Program can be obtained on the Town's website at: <http://www.monroect.org/MS4-plan-report>.

Should you have any questions on this data gathering project, please contact Scott H. Schatzlein, Land Use Director/Town Engineer at 203-452-2809, or [sschatzlein@monroect.org](mailto:sschatzlein@monroect.org).

Sincerely,

Scott H. Schatzlein, PE  
Land Use Director / Town Engineer

cc: Kenneth M. Kellogg, First Selectman
